By Sean McManus, Joanna Kerr

QED Publishing. Hardback. Book Condition: new. BRAND NEW, Super Skills: How to Code in 10 Easy Lessons, Sean McManus, Joanna Kerr, So, you want to learn how to code, but you don't know where to start? From writing simple coding instructions using Scratch software, to learning the coding skills to create your own computer game, and even design your own website, this book leads the way. By breaking this daunting subject down into the 10 'super skills' needed, young readers can get to grips with computer coding, and build on their skills as they progress through the book. Starting off with a short introduction that poses the question "what is coding?", the super skills of coding include using Scratch coding software to give coding instructions, write simple code and use loops; learning how to debug and fix code; and using your coding knowledge to create a simple computer game and create a webpage using simple HTML.
