National Academies Press. Paperback. Book Condition: new. BRAND NEW, Persistent Forecasting of Disruptive Technologies: Report 2, Committee on Forecasting Future Disruptive Technologies, Division on Engineering and Physical Sciences, National Research Council, The term "disruptive technology" describes a technology that results in a sudden change affecting already established technologies or markets. Disruptive technologies cause one or more discontinuities in the normal evolutionary life cycle of technology. This may lead to an unexpected destabilization of an older technology order and an opportunity for new competitors to displace incumbents. Frequently cited examples include digital photography and desktop publishing. The first report of the series, Persistent Forecasting of Disruptive Technologies, discussed how technology forecasts were historically made, assessed various existing forecasting systems, and identified desirable attributes of a next-generation persistent long-term forecasting system for disruptive technologies. This second book attempts to sketch out high-level forecasting system designs. In addition, the book provides further evaluation of the system attributes defined in the first report, and evidence of the feasibility of creating a system with those attributes. Together, the reports are intended to help the Department of Defense and the intelligence community identify and develop a forecasting system that will assist in detecting and tracking global...
