*This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It's been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, alter the way I believe.*

Aging and Ethics explores the many ethical issues involving the elderly, their care, and their role in society—urgent concerns that have only recently come to the forefront. There are now eight times more Americans over the age of sixty-five than at the turn of this century; their proportion to the rest of the population has almost tripled. And this trend is expected to accelerate into the next century! This aging of society has raised an increasing number of deep and troubling questions: What are our responsibilities toward aging family members? What can we reasonably expect in our own old age? What special role (if any) do older persons play in our society? How can medical resources be distributed justly between generations? How can institutions that serve the elderly preserve values such as autonomy, self-respect, and dignity? Nancy Jeckers' timely new volume deals with these and other issues on four levels: the aging individual; aging and filial responsibility; distributive justice in an aging society; and philosophical reflections on aging and death. Aging and Ethics is must reading for professionals in a variety of health-related and counseling fields, as well as for the growing number of concerned laypeople who need to better understand the often compelling issues associated with aging today. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Hardcover.
